UNLOAD

START: Standing at fence with rifle, loaded with 10 rounds, at port arms. Two pistols loaded with 5 rounds each and holstered, open and empty shotgun on table.

ON SIGNAL: Engage all rifle targets alternating between plate rack and stationary target. Move to position 2 and stage rifle on table. With pistols, alternate between the plate rack and the stationary target.

“alternating between” allows you to start on either a knockdown or the fixed target...
With shotgun, you may engage any knock down left standing.

Only Gunfighters may have both loaded pistols out at the same time!
